

## Why Choose Z-Floracen?

### Z-FLORACEN

**Advanced spore-forming Bacillus clausii formulation**, highly resistant to gastric acid and environmental stress, ensuring optimal intestinal delivery.

**Powerful synbiotic combination of probiotics and zinc**, designed to enhance immune response and promote faster recovery.

**Zinc-enriched support** that promotes **T and B lymphocyte development** and enhances **IgA and IL-2 activity** for stronger immune defense.

**Clinically supportive in reducing water and electrolyte loss** during diarrhea, helping prevent dehydration.

Manufactured using state-of-the-art **BFS (Blow-Fill-Seal) Technology**, ensuring sterile, preservative-free, and high-quality production.

**Pleasant, child-friendly taste** to improve compliance, especially among pediatric patients.

**Z-FLORACEN** Stronger Gut. Stronger Immunity. One Smart Solution.

## Users

People take **Bacillus clausii probiotics** like 2 B CFU for:

- ✓ Diarrhea
- ✓ Constipation
- ✓ Anorexia
- ✓ Stress
- ✓ Strengthen the Immune System

# Z-FLORACEN

## Mechanism

## ADVANTAGES

- ✓ Spore Form
- ✓ BFS Technology
- ✓ Zinc Plus
- ✓ Synbiotic Suspension
- ✓ Good Taste

## Probiotics Effects

- Reduce blood cholesterol
- Strengthen the immune system
- Balance the intestinal microflora
- Anti-inflammatory

With the rising demand for immune-support and gut-health products in the Philippine market,

**Z-FLORACEN** provides a differentiated probiotic option enhanced with **Zinc**, making it highly suitable for **pediatric and general family use**.

## Dual-Action Protection for Gut Health and Immunity

With **2 billion Bacillus clausii spores** and **zinc** in every 5 mL, Z-FLORACEN helps restore intestinal balance, support immune response, and aid recovery from diarrhea and digestive disturbances.
